The Internet as well as the TV can be the A word or a Parasite also. I could get outside time. When summer arrives I could get out, the sun prevents cancer.

Dominus Alandros Sathanas · @Dominus-Sathanas · 10:04PM

Also cold weather as well as sunlight is therapeutic. Cold Showers get rid of many health conditions.

Why do these blue light things even exist, when you could have only e-ink and run all you shit on overunity to avoid the Lilly Wave.

Overunity by stacking copper, carbon, aluminum 20 feet.

Everything in our society is a God Damn Lie and the Darpa internet does not even know that when you stack copper, carbon, aluminum 20 feet you get unlimited amp hours or that as soon as humans die they are psychic ghosts.

Dominus Alandros Sathanas · @Dominus-Sathanas · 10:15PM

I already have a light in my room with unlimited amp hours and The Internet is Propaganda.

Dominus Alandros Sathanas · @Dominus-Sathanas · 10:17PM

The Illuminati made our generation so dependant on GOOGLE and now we don't go outside or figure things out ourselves.
